## DURALite® ColorRings™

Our newest and most advanced ergonomic handle design! The DuraLite ColorRings handle has the same large 3/8" (9.5 mm) diameter as our popular DuraLite round design. The handle design has a more gradual taper from the tip to the grip so that your fingers are even more comfortable closer to the tip. In addition, we've extended the ControlRings grip by 50% to give you maximum slip-free gripping power over a larger portion of the handle. The handle has a gentle texture to reduce glare and is 100% stainless steel to make it easy to clean and sterilize by any method. The DuraLite ColorRings handle incorporates four color ring positions that are below the finger grip surface allowing you to better identify, organize and customize your instrumentation. Our innovative design makes customizing the DuraLite ColorRings handle simple and easy.

## DURALite® ROUND Diagnostic

Both of our double and single end DuraLite ROUND handles for diagnostic have a large 3/8" (9.5 mm) diameter. The double end is only 16 grams, and the single end is the lightest weight handle in the industry at only 12 grams. Both handles are designed for the ultimate in tactile sensitivity, have a gentle texture to reduce glare, and are 100% stainless steel to make them easy to clean and sterilize by any method.

# HANDLES

## ○ DURALite® Round

Our DuraLite Round has a large 3/8" (9.5 mm) diameter and is extremely lightweight for maximum tactile sensitivity. Our exclusive ControlRing design gives you the ultimate in grip and control. It requires less finger pressure resulting in less hand and finger fatigue. The handle has a gentle texture to reduce glare and is 100% stainless steel to make it easy to clean and sterilize by any method.

## ⬡ DURALite® HEXagonal

Our original ERGONOMIC handle that changed the industry! DuraLite HEX has a large 7/16" (11 mm) diameter that comfortably positions your hand and fingers in the "Modified Pen Grasp" position. The handle has a gentle texture to reduce glare and is 100% stainless steel to make it easy to clean and sterilize by any method.

Double End *(Only)*

## ● Medium Round

The Medium Round #4 handle has a moderate 5/16" (8mm) diameter with a segmented knurled grip to provide excellent control. The handle is 100% stainless steel and the finish is bright electro-polished to make it easy to clean and sterilize by any method.

Double End *(Only)*

## ● Standard Diagnostic

Our original standard diagnostic handle has a 7/32" (5.5mm) diameter with a segmented knurled grip to provide excellent control with this slimmer handle design. Both the double end and single end handles are 100% stainless steel, and the finish is bright electro-polished to make it easy to clean and sterilize by any method.

Double End

Single End

## ● Standard Universal

This is Nordent's original solid handle design. It has a 1/4" (6.4 mm) diameter with a segmented knurled grip to provide excellent control with this slimmer handle design. The handle is 100% stainless steel and the finish is bright electro-polished to make it easy to clean and sterilize by any method.
